application number

PO-SA4834/32M-VP1

O.F.A. NUMBER

1/11/2018

date of report

This number issued with the right to correct or
revoke by the Orthopedic Foundation for Animals.

RESULTS:

Based on the samples submitted, no evidence of Sebaceous Adenitis (SA) was found and the dog is phenotypically normal at this time. Normal results do not imply that the dog is genetically normal, only that there was no evidence of SA in the samples at this point in time. Retesting is recommended every one to two years for dogs used for breeding.
