

DNA Test Completed April 03, 2014

Owner's Name and Address:

Teresa Wellman

329 SW spoonbill Ct
Fort White, FL - Florida 32038
USA

Registered Name: Smart Connection Remember The Time (Russia)

Registration #: PR16666301

Tattoo/Chip #: N/A

Call Name: Varuka

Breed: Miniature Poodle

Date of Birth: May 30, 2012

Gender: Female

Optigen Accession #: 14-3115

Test Performed: prcd Mutation Test for PRA

Sample Type: Blood

Test Results: Genotype of your dog is NORMAL/CLEAR.

Risk for developing prcd-PRA: This dog will never develop the prcd form of PRA (progressive rod-cone degeneration form of Progressive Retinal Atrophy). Note that PRA in Poodles appears to consist of at least two different genetic defects. Prcd-PRA is by far the most frequently identified cause of PRA in Miniature and Toy Poodles. However, a poodle of known status for prcd-PRA could still be at risk for another, less frequent, and as yet unidentified form of PRA. Significance for breeding: Genetically Normal/Clear dogs can be bred to any dog and will produce no pups affected with the prcd form of PRA.

This interpretation is based on the test result of the DNA test for the specific mutation identified as causing the prcd form of PRA in Miniature Poodles as of the date on this report.
